

Module 3 Implementing Microcredentials

Part 3.1 Configuring Moodle for Microcredentials

Part 3.1.3 Custom Certificates

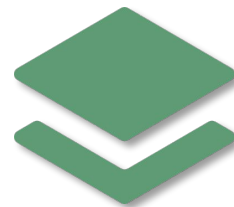

Co-funded by the
Erasmus+ Programme
of European Union

Co-Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
Project No: 2024-1-SK01-KA220-ADU-000253202

Introduction

Duration: approx 25 minutes

In this unit “**Certificate of Attendance**” you will learn how to create a customized Certificate of Attendance, and how to add a QR code in it in order to allow MicroCredential verification via the blockchain.

The unit will be organized in the following:

1. Learn more on custom certificate (additional resources are integrated if you want to know more about the design and the requested elements to create a certificate from scratch)
2. Technical video on how to create a certificate

Learning outcomes:

- Break down the operational process for implementing Microcredentials.
